

INTERNSHIP / AND OR WEB DEVELOPER / EBIZPRODUCTION – LEBANON

Ebizproduction, a web development company based in Lebanon and France, is looking for candidates for a 3 month internship/and or full time web developer.

The selected candidates will benefit from being around a team of experienced web developers and engineers that will follow their progress and help them get the required skills for front/back end web development.

During the internship period, the candidates will be trained on the latest back-end and front-end web development for the company's Lebanese and French clients:

- Drupal / Wordpress CMS
- OOP programming: Symfony / php
- MySQL
- HTML5 / CSS 3 / SASS / jQuery / Javascript

As a web developer, you will work and reinforce your web knowledge on small to large projects with other members of the team.

Your main role is to make sure the website meets the requested functional and technical requirements and to participate in the development of the website, paying close attention to small details since we are committed to delivering great standards of service to every client, every time.

We are searching for a fast-learner with superior attention to detail, a person who is genuinely passionate about the web industry in general since he or she will be exposed to the many facets of the web, from web development, frontend development and quality control, accessibility and SEO, to web marketing and communication.

Responsibilities

- CMS configuration. Back end development.
- Front end development.
- Assist in configuring web analytics profiles and in preparing SEO reports for the clients.
- Assist in testing website functionalities with the project managers and identify accessibility issues to ensure a solid product is delivered

Skills

- Passionate about the web industry.
- Superior attention to detail.
- Good English and French writing skills.
- Basic skills in photo editing software (Adobe Photoshop or Illustrator).
- Any CMS experience is a plus especially drupal and wordpress.
- CSS / HTML / PHP / JS exposure is a plus.

This is a very challenging job position which requires a fast-learning person who will have the opportunity to be exposed to many aspects of the web industry horizontally and gain skills in each and every one of them.

Positions are available after the internship period, offers will be made to the candidates for integration in the company.

Send your CV to recruitment@ebizproduction.com, or call 03-56 00 95.
